

Are you tensed how to help your kid in reading and writing- read it!

Every parent tries his best to find the proper means to educate and inculcate proper reading and writing habits in his child. Before the child is sent to school, right steps by his parents should be taken to teach him reading and writing.

How to help your child speaking proper sentences?

Starting teaching your kid as early as possible is not considered good. Formal reading instructions are of no use to make your child a good reader. Some fun giving activities can lay a strong early literacy foundation.

For proper foundation of learning reading and writing, kids need to be brought up in a good encouraging environment, where they can talk, ask questions and increase their vocabulary. Teach them to build good sentences by paying attention to what they speak and rectify them at the same time. What parents can do is providing the good learning environment by simply reading, listening and talking to them.

Skill areas for reading foundation

There are various areas to check while your child is learning to read and write but three main skill areas to form proper reading foundation of a child are- print knowledge Literacy awareness Language understanding Print knowledge- it means understanding the message carried by printed letters. Parents play a major role by spending the time and making him read the various books available in the market for them. They can converse with the child about the matter he had read.

Literacy awareness-it includes grouping of letters in a meaningful way. Parents with the help of various means can help them in attempting to write the words after grouping of letters.

Language understanding-is one of the main steps in teaching your child learn the way to pronounce words correctly. Check if your child is able to sound out words in spoken sentence.
